CHECKLIST
FOR PBN FOOTPRINTS

🌐 Domains

	Possible Footprint/Issue	What to do
☐	Registrars	Use popular registrars (GoDaddy, NameCheap).
☐	Public auction domains	Buy domains from different marketplaces.
☐	Registration date	Don't buy all domains on the same day/week/month.

🌎 Website

	Possible Footprint/Issue	What to do
☐	Cheap/SEO Hosting	Host only with the reputable and popular hosting providers.
☐	Unique plugins and themes	Do not use the same plugins and themes on all your blogs.
☐	404 redirects to homepage	Rebuild strongest pages, don't use 404 redirect plugins.

📝 Content

	Possible Footprint/Issue	What to do
☐	Commercial keywords	Don't write articles only about commercial keywords.
☐	Short and few articles	Random length of articles, up to 1000 words. At least 10 blog posts and more scheduled.
☐	No internal pages	Add About, Contact, Legal, Privacy and other internal pages.
☐	Google Webmaster Tools, Analytics, AdSense or any other analytics/ad codes	Don't use them. For analytics, find something that doesn't have a unique code.

🔗 Linking

	Possible Footprint/Issue	What to do
☐	Outbound link patterns	Don't link to all money sites from all blogs.
☐	No links to other sites	Add links to other small niche sites and authority sites.
☐	Commercial link anchors	90%+ link anchors should be brand and generic.
☐	All links on front page	Allow links need to drop off the front page.
☐	No links to internal pages/posts	Do internal linking.

Easy Blog Networks

Easy Blog Networks is a PBN hosting service that installs your blogs with a single click on random servers, hosted by big-brand hosting providers like Amazon Web Services, Dreamhost, LiquidWeb, OVH, Rackspace, SoftLayer (IBM) and others. Their system automatically updates WordPress, plugins and themes and maintains daily backups.

Easy Blog Networks has been built from the ground up to be the easiest, simplest and 100% auto-pilot solution for building, hosting and managing your PBNs.
